Founded in 1911, the Port of Grays Harbor is one of Washington State's oldest port districts and Washington's only deep-water port located directly on the Pacific Ocean. The Port of Grays Harbor operates 4 deep-water marine terminals, the Westport Marina, Bowerman Airport, Grays Harbor ship assist services, numerous public waterfront access facilities, in addition to industrial and business parks throughout the County. The addition of Satsop Business Park increased the Port's properties to more than 1,000 acres of industrial properties and an additional 1,200 acres of sustainably managed forestland. Strategically located midway between Seattle and Portland and less than 1 ½ hours from open sea, the Port of Grays Harbor provides businesses a diverse portfolio of facilities. More information on the Port of Grays Harbor's facilities and operations is available at portofgraysharbor.com or satsop.com.

The Westport Marina is offering walking tours of its unique working waterfront on September 12th and 14th, from 3:30-5pm.
